****Please bring a notebook and a well-stocked pencil case with a grey lead pencil, coloured pencils, a capsule sharpener, ruler, bright textas, scissors and glue. Also bring along any additional materials listed for your program.****

ROBBERY AT SPARKLER'S JEWELLERY STORE with Stephanie Axon

The residents of Sleepy Hollow were proud of the fact that for years they have had the lowest crime rates this side of the big smoke. So safe is Sleepy Hollow, that the local policeman, Chief Catchemall, had decided to go on a 3-day fishing trip over the long weekend. Imagine the shock when local jeweller, Mr Ivor Sparkler, arrived at his shop on Saturday morning to find it had been broken into and all of his precious stock taken! As detectives from a nearby town, you have been called in to commence the investigation before the crime scene is compromised. Forensic analysis of glass, testing of soil samples, analysis of damage on vehicles are all in order as we process the evidence found at the scene. With Chief Catchemall busy catching trout, it's up to us to catch the cunning thief before he or she escapes with the precious haul!

SECRET SPACES AND HIDDEN PLACES: AN UNUSUAL WRITING EXPEDITION with Kim Edwards

A labyrinthine mansion of secret passages, staircases to nowhere and a second-floor door that opens onto thin air...

A royal palace room made entirely of priceless gemstones is looted, dismantled, and then never seen again...

An ancient 'floating' city of vast stone ruins, and no-one knows who built it, how they built it – or why they built it...

An extraordinary underground forest of giant crystals, where you only have 8 minutes to view the beauty and majesty before the cave tries to destroy you...

These mysterious locations may sound like they only exist in fiction – BUT they are ABSOLUTELY REAL! Come explore them today, as we use four of the most remarkable and enigmatic locales in the world as dazzling writing inspiration for our own creative historic adventures... When they set foot in these strange and spine-tingling landscapes, what extraordinary escapades might your characters soon find themselves in – and moreover, however will they get out again?!

LIGHT UP YOUR LIFE with Debi Cohen

This fun hands-on workshop will take you through the process of making moulded candles, scented candles and pillar candles.

Unleash your imagination and creative skills as you make some extraordinary candle designs. We'll find out about the different types of waxes and their uses, the ideal the ratios between wax and oil and we'll explore candle-making terms like burn cycle, fragrance load, hot throw and hang up. We will experiment with dyes, scents and paints for decorating. You will also learn about flash points and what they mean for fragrances and candle making. I will share all my tips to make this the best candle-making venture, one that can be further developed in the future. It should be an enlightening experience! **Please note there will be a materials' levy of \$15 for this program, payable at the time of enrolment**

THE SCIENCE OF FRANKENSTEIN'S MONSTER with Jo Davis

Mary Shelley wrote a book two hundred years ago, about how a crazy scientist created new life in Frankenstein's monster. Science has come a long way since then, and many discoveries have been made about how the human body functions including DNA, blood transfusions, organ transplants, artificial body parts, and genetic engineering. We will investigate if it is possible to create a new human being, using cutting-edge scientific techniques, including purifying DNA, discovering which blood type the monster would need to survive, and how to cryogenically preserve a human body! Could Frankenstein's monster be fashioned out of body parts from multiple human and animal donors, and how would we stop organ rejection and infection? We will put our minds and hands to the test as we enter the laboratory of Victor Frankenstein and his creations. **Bring an old shirt/lab coat/art smock.**

ALICE IN WANDERLAND: WRITING A PUZZLING PASTICHE! with Kim Edwards

Alice has been yearning to return to Wonderland, but with the rabbit hole caved in, it has to be back through the Looking Glass...

One wrong move though, and the mirror has shattered, splintering the worlds, characters and events of four classic novels into a bewildering array of puzzling pieces that will need to be reassembled into an extraordinary new adventure! Take a wondrous wander through strange lands with your favourite fictional characters from *Alice in Wonderland*, *Peter Pan*, *Wizard of Oz* and *Treasure Island* in this marvellous magical writing-mashup, where YOU might decide that Long John Silver and Captain Hook should join piratical forces, or that Toto the dog will chase Dinah the cat up the Lost Boys' treehouse, or that Jim Hawkins and Dorothy Gale could find themselves battling the Queen of Hearts, armed with only Tinkerbell's fairy dust, the Tinman's axe, and an indignant talking Caterpillar...!

These beloved books may be famous and familiar, but what we're about to do with them? – now, THAT'S a whole other story!

Our Festival presenters are a brilliant bunch! To learn more about them, head to
